Junior Research Econometrician

Research econometrician with a strong foundation in quantitative analysis, causal inference, and financial economics. Currently building econometric models for EU transport demand forecasting at the International Road Transport Union (IRU) in Geneva. Combines rigorous academic training from the University of St. Gallen with hands-on experience in Python, R, and AI-powered analytical tools. Preparing for the CFA Level 1 exam (August 2026).

01 Work Experience

11/2025 – Present Geneva, Switzerland
Junior Research Econometrician
International Road Transport Union (IRU)

- Built econometric models forecasting freight transport demand across all 27 EU member states, informing IRU policy briefs read by transport ministers
- Delivered short- and long-term demand projections that reduced forecasting turnaround time by 40% through automated Python pipelines
- Conducted market analysis supporting strategic corridor-expansion decisions across Europe
- Processed large-scale EU transport datasets with Python and R, improving data quality and reproducibility

09/2023 – 10/2025 Geneva, Switzerland
Econometric Intern
International Road Transport Union (IRU)

- Conducted in-depth analysis of EU transport industry data, producing quarterly trend reports
- Developed demand projection models adopted by the research team for ongoing use
- Executed market analysis facilitating business-expansion decisions across new European corridors
- Automated data extraction, cleansing, and validation workflows, eliminating manual processing errors

01/2023 – 03/2023 Geneva, Switzerland
Assistant to WTO Counsellor
Permanent Mission of Uzbekistan to the UN Office

- Drafted written reports for the UN Office and international organisations in Geneva, cited in official Mission communications
- Facilitated embassy liaison and WTO policy coordination across multilateral workstreams
- Generated daily socio-economic situation reports covering global regions for Mission leadership

02 Education

09/2020 – 2024 St. Gallen, Switzerland
Bachelor of Arts in Economics
University of St. Gallen (HSG)

One of Europe's top-ranked business and economics universities.
GPA: **4.9 / 6** | Thesis: **5.75 / 6**
"Assessing the Economic Impact of Sanctions on Russia: A comparative analysis using the synthetic control method"

09/2015 – 07/2020 Pully, Switzerland
International Baccalaureate
Collège Champittet

Final grade: **34 / 45**

03 Certifications

CFA Level 1 Candidate — CFA Institute
Exam: August 2026
